Subject: Leviathan Mine - RIFS Three Week Field Schedule Projection 5-29-17 to 6-16-17

Lynda,

The following is Atlantic Richfield's updated three-week schedule projection for Remedial Investigation/Feasibility Study (RI/FS) activities at the Leviathan Mine.

Week of 5/29/17

- Monday – no site work due to Memorial Day Holiday.
- Tuesday and Wednesday – Perform bi-weekly maintenance at the On-Property storm water stations.
- Tuesday – Continue the bi-weekly revegetation performance monitoring at each of the three revegetation plots.
- Tuesday and Wednesday – Develop the drive point piezometers installed for the surface water/groundwater interaction investigation in Upper Leviathan Creek.
- Tuesday through Friday – Continue the spring groundwater monitoring event.
- Wednesday – Install and survey the Crusher Road Slope Instability monitoring monuments.

- ████████████████████ Friday – Perform routine monitoring of the Crusher Road Slope Instability monitoring monuments.

Week of 6/5/17

- ████████████████████ Monday through Friday – Perform hydraulic testing of monitoring wells not previously tested.

- ████████████████████ Monday through Friday - Continue the spring groundwater monitoring event.

- ████████████████████ Monday and Tuesday – Collect monthly flow measurements at locations proposed in the April 19, 2017, Supplemental 2017 Monitoring for Groundwater/Surface Water Interaction Investigation near Acidic Pond and Leviathan Creek.

- ████████████████████ Tuesday – Scout the road and Bryant Creek crossing to East Fork Carson River in preparation for spring surface water sampling at locations in the East Fork Carson River (Off-Property Area Focused Remedial Investigation Work Plan Addendum No. 4 – Task Sampling and Analysis Plan for Fluvial Deposits and Surface Water in the East Fork Carson River).

- ████████████████████ Wednesday and Thursday – Download data and perform the annual calibration of all the sensors installed at the Meteorological Station at MET-01.

- ████████████████████ Thursday – Perform a site walk to plan for implementation of the Beaver Dam/Pond Complex Focus Feasibility Study.

- ████████████████████ Monday, Wednesday, and Friday - Perform routine monitoring of the Crusher Road Slope Instability monitoring monuments.

- ████████████████████ Wednesday through Friday – Record cultural resources found during 2016 RI investigations.

Week of 6/12/17

- ████████████████████ Monday through Friday – Perform hydraulic testing of monitoring wells not previously tested.

- ████████████████████ Monday through Friday - Continue the spring groundwater monitoring event.

- Monday, Wednesday, and Friday - Perform routine monitoring of the Crusher Road Slope Instability monitoring monuments.
- Monday through Friday – Collect the spring surface water samples at designated locations in the East Fork Carson River (tentative depending on the results of the road scouting scheduled for Tuesday 6/6/17).
- Wednesday through Friday – Collect soil samples for the Isbell Camp Hydrocarbon Investigation (tentative pending U.S. EPA approval of the On-Property FRI Work Plan Amendment No. 12, Supplement No 1 – TSAP for Camp Isbell Hydrocarbon Investigation).
- Wednesday and Thursday – collect manual water level measurement in monitoring wells and piezometers without transducers installed.
- Monday and Friday – Record cultural resources found during 2016 RI investigations.

Please note: this schedule is subject to change based on the actual field implementation time, weather conditions, and contractor availability that may cause delays.

Should you have any questions or comments please contact Tony Brown at (657) 529-4537 or anthony.brown@bp.com.

Thanks,

Marc
